The story so far.....

Space Girl came down in a beam of light and landed on top of a monster wave, surfing like a silver flame, like a space demon, she could ride that thing. And Surf Boy loved her right away. Then, she vanished instatntly. Surf Boy thought maybe she wiped out and spent the rest of the day looking for her under the waves, but he couldn't find her.

Meanwhile, she was on the Spaceship watching him on her Scan-screen and fell in love with him, too. The next day, Surf Boy went surfing and wiped out for real, and smashed his head on the rocks. Space Girl put him on her surf board, flew him back to the Spaceship, and brought him back to life. Her dad didn't like her hanging out with an earthling, but couldn't stand in the way of their love. Then they got their own Spaceship and now they travel the Milky Way looking for other planets with awesome waves everyday.....
